

# QUAKE™

Quake Furniture creates, develops and makes unique and original products for the human environment. Working in collaboration with artists, designers and craftsmen we transform art to design, to make pieces that are unique, beautiful and functional.

Our design philosophy is based on the vernacular of the Pacific North West. We pair our organic concepts with innovative materials and finishes. Hand drawings of trees become templates for laser cut-outs in metal to make functional and timeless tables. Our drawings of bark, rocks, and sand become the inspiration for our lighting collection. Our designs evolve from the natural world but are transformed by colour, materials and finishes to become modern classics.

# QUAKE TABLE

All the materials – aluminum, paint, wood, and marble – are sourced in Canada. Each table is hand assembled and finished in Vancouver, Canada.

Our aluminum is mined and produced in Canada. Our marble is quarried on Northern Vancouver Island and has a wonderful milky tone. Each marble slab will have its own natural irregularities. If you are ordering a pair, or more, please advise us so we can ensure that the tops are from the same slab. Our fir is cut from second and third growth sustainable forests in British Columbia.

All table bases are available with any of our tops.

## **SIZES**

### **Q22**

22" H x 18.5" Diameter

### **Q18**

18" H x 18.5" Diameter

## **BASE COLOURS**

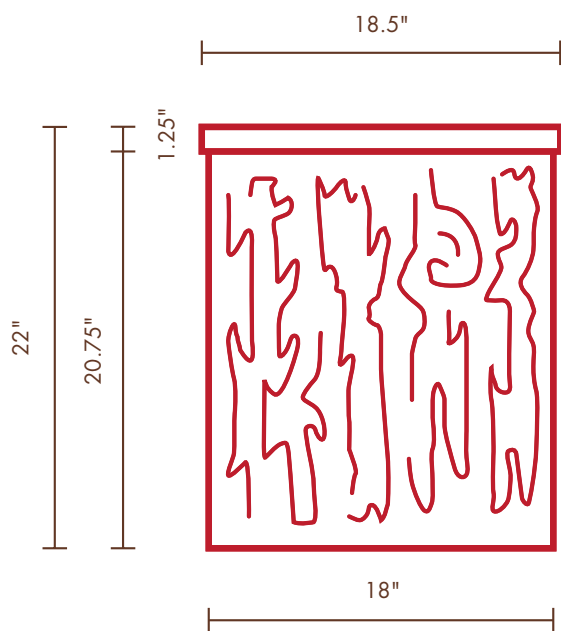

Bainbridge Black  
Cortez Bronze  
Quadra Red  
Qualicum Silver

## **TOP COLOURS**

Douglas Fir  
Flint Black MDF  
Max Marble
